Welcome to a Modern Pole House perched at the very top of Maui Meadows with expansive ocean and outer island views. Completely remodeled and recently finished in March 2018, this property is essentially brand new. From the heated saline pool at the bottom of the property to the top of the new standing seam metal roof, one can admire the updates that compliment the property's original Frank Stiller designed Pole House. Surrounded by the lush landscape of grapefruit, blood orange, mango, banana and lime trees, this feels like a modern tropical treehouse with over 2,500 square feet of covered wraparound lanais, tall open beam ceilings and window covered walls that bring in cooling cross breezes and natural light. Custom features include porcelain tile floors, a steam shower, a variety of monkeypod, mango and cypress wood counters, and Smart home automation. This property offers a clean canvas for an additional living space on the lower level with its own driveway and private entrance. Save on utilities with 34 fully owned PV solar panels with net metering and solar hot water heater. The detached 2 car garage has a half bath, offering an ideal workshop area.
